

MIND4MACHINES Open Call 1 - Success Stories

MIND4MACHINES (M4M) aims to facilitate the cross-sectoral and cross-border support needed by manufacturing SMEs to test and adopt the latest digital technologies for transformation towards smarter, greener, and more resource-efficient manufacturing, aligned with the latest EU policies.

Funding diverse subprojects aimed at advancing manufacturing SMEs holds significant importance in driving innovation, sustainability, and resilience within the industrial landscape. Here are key points to highlight the significance of such funding:

- Drives innovation and technological evolution within manufacturing SMEs.
- Offers tailored solutions to address unique challenges in various manufacturing contexts.
- Contributes to a comprehensive transformation across the manufacturing sector.
- Mitigates risks and promotes adaptability for SMEs in diverse circumstances.
- Fosters cross-sectoral collaboration, sharing knowledge and expertise.
