

MIND4MACHINES | Funding opportunities

A Roadmap of European and Regional Funding Opportunities for Start-ups and SMEs

Across Europe, countries like Spain, Türkiye, Germany, Italy, Romania, Bulgaria, Finland, and Ireland offer a wealth of opportunities for start-ups and SMEs to thrive and grow. Whether through public funding initiatives, private sector support, or vibrant entrepreneurial communities, these countries are committed to fostering innovation and driving economic growth through entrepreneurship. Aspiring entrepreneurs can unlock the support they need to turn their ideas into successful businesses by tapping into these resources and networks.

In addition to the existing support mechanisms, it's worth noting that the Mind4Machines European project has compiled a comprehensive document highlighting the key European and regional public and private calls for start-ups and SMEs. This initiative aims to streamline access to funding and support by providing entrepreneurs with valuable information on available opportunities across various sectors and regions. By leveraging the insights provided by projects like Mind4Machines, aspiring entrepreneurs can better navigate the landscape of funding opportunities and maximize their chances of success.

MIND4MACHINES | Mind4Machines Shines at 4YFN Event

Mind4Machines and its partners had a strong presence at the recent 4YFN event. We are thrilled to share a recap video showcasing the most memorable moments. We are proud to have supported 18 innovative projects and 20 SMEs, providing them with valuable opportunities to connect, collaborate, and showcase their cutting-edge solutions.

The 4YFN event provided an outstanding opportunity for our participants to connect with new customers and investors, establishing valuable connections that will drive their future growth.

Watch out for the [video](#) and join us in celebrating the accomplishments of these ventures!

In addition, we've prepared a special catalogue highlighting all projects funded by Mind4Machines. This catalogue will be an invaluable tool for those interested in finding out more about these innovative initiatives. Take a [*look*](#)

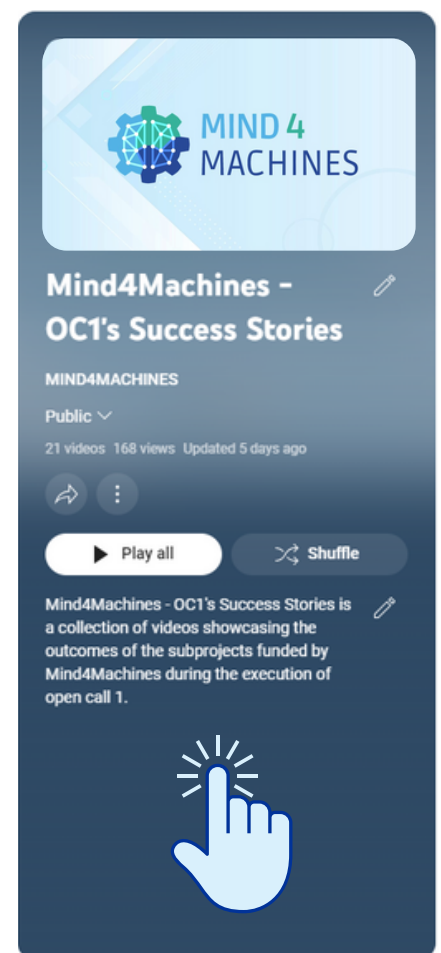

MIND4MACHINES Open Call 1

Unveiling the Success Stories of Sub-projects Financed by Mind4Machines in Open Call 1

MIND4MACHINES aims to improve the innovation, sustainability, and resilience capacity of manufacturing SMEs by supporting subprojects through the Cascade funding mechanism in two different TRLs: innovation (TRL 5-7) and go-to-market (TRL 8-9) support schemes.

The funding emphasizes driving innovation and technological evolution within manufacturing SMEs, offering tailored solutions to address unique challenges, contributing to a comprehensive transformation across the manufacturing sector, **mitigating risks, promoting adaptability for SMEs, and fostering cross-sectoral collaboration and knowledge sharing.**

We have collected a series of **success story videos** in the M4M industry, showcasing the accomplishments of both the technology provider and industrial partner and **the impact of the solution on their businesses.** These videos illustrate tangible outcomes such as **improved efficiency, cost savings, enhanced quality, and increased sustainability** in alignment with current EU regulations.

Mind4Machines OC1: Results Recap

Mind4Machines' Open Call 1 (OC1) has been a journey marked by innovation and collaboration. Our upcoming **video** presentation promises to showcase the statistics and key highlights of OC1, giving you a glimpse into the challenges conquered and the transformative technologies employed.

Assess your Company's Investment Readiness with the M4M IRL-Assessment!

Never used our IRL-Self-Assessment Tool? Be investment ready!

Investment readiness can be defined as "the ability of a company to understand and meet the specific needs and expectations of investors"

Opportunities from the point of view of the investor

Criteria that investors want to know to assess the investment opportunity

Present the investment opportunity to attract investors

How "investment ready" is your company? Discover the answer by completing the IRL-Assessment to evaluate your company's strengths, weaknesses, and development potential. As an entrepreneurial team, it is crucial to understand your key competencies and gain a clearer picture of your project. This knowledge will be invaluable when pitching to investors or validating and scaling your business model.

Already a user of our IRL-Self-Assessment Tool? Review your results!

Make strategic decisions

Improve attractiveness to investors

Positioning for long-term growth and success.

If you have already completed the M4M IRL-Assessment as part of the MIND4MACHINES Accelerator Programme, take this opportunity to review your results. The purpose of repeating the IRL-Assessment is to compare your scores to show possible improvements through the M4M services or the past project months. **Knowing your current IRL-Score allows you to use it as a key figure for your company's Investment Readiness.**
